

NightBuild:

github-musescore-musescore-c6cba47 (on Windows 7 Home Premium 64bit)

I have double staves. Bottom one is copy-paste of upper one.

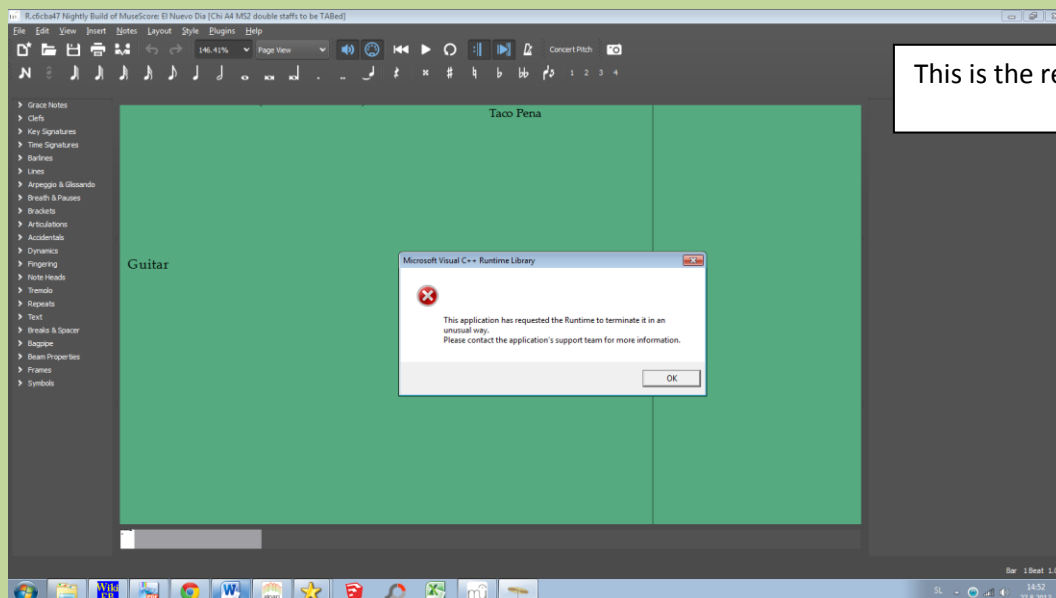

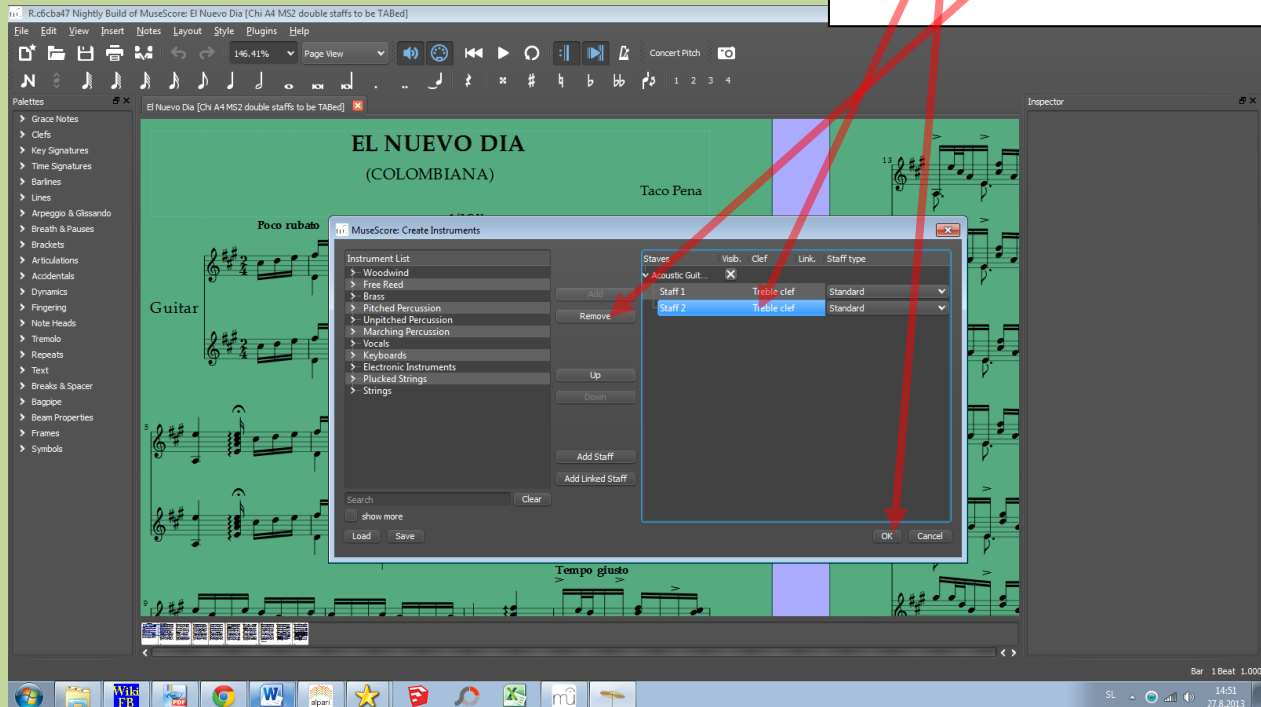

I want to delete bottom one.

I click Insert – Instrument.

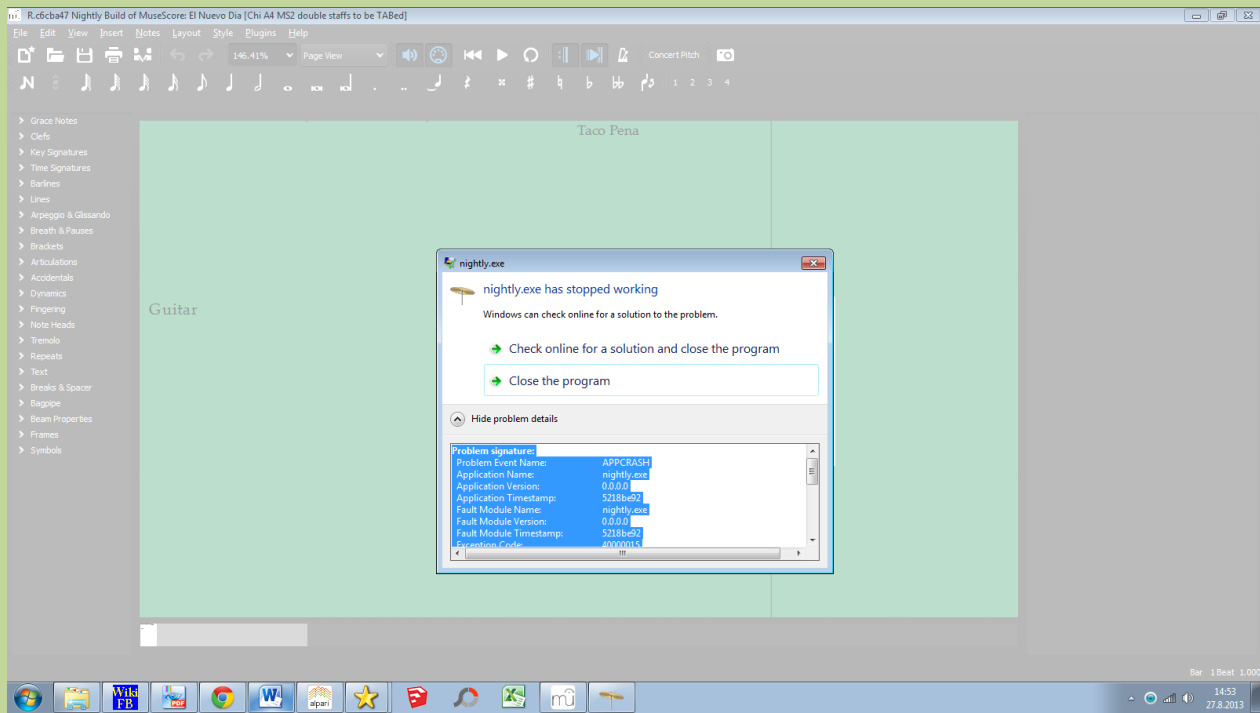

Then I select Staff 2, and click Remove.

So far, so good. But then...

I click OK.

This is the result. Program crashes.
