0 3

This fingering on guitar is actually written HERE in standard musical notation

GuitarTABL was made as per Handbook – Tablature creation. Using Insert – Instrument – Add Linked Stuff.

Now, GuitarTAB is one whole octave off:

This note should be represented

Here

So GuitarTABL 'writes' notes one octave higher than it should.

Γ 001

TAB

5 2 4 2 5 3 2 4 5 2 4 6

4 5

If I change Clef to Treble Clef 8vb – Voila, that's the way you do it, money ain't for nothing and the chicks for free!

Brilliant work, I love it!

Just, either standard notations are missing 8vb clef, or for guitar parts in MScore 2 tablatures should be automatically transposed to one octave lower.

Me personally do not mind if there is no. 8 under clef, but this issue should be mentioned in MScore 2 handbook pdf.

Tempo giusto

2 0 0 2 0 3 1 14 12 5

2 1 0 2 0 3 1 14 12 5

1 0 0 2 0 3 1 14 12 5

One more thing. Since default behavior copies complete staff with all its text etc., is it possible to have ex. script or plug-in that will remove all unwanted text (which is doubled), that is text linked to TABL staff?

Perhaps it is best to delete it manually. Don't know.
