

Mixer

Play part only

The mixer interface features seven vertical channels. Each channel contains a solo button (green circle with 'S'), a mute button (red circle with 'M'), a pan knob (blue vertical slider), and a volume fader (grey knob on a vertical scale). A blue vertical line runs through each channel, representing the signal path. The faders are positioned at different levels, with the rightmost channel's fader being the lowest.

Leave Feedback

The musical score consists of three systems of staves. The top two systems show vocal lines with lyrics 'n - ya...'. The bottom system shows piano accompaniment with the text 'TTB, TTBB/treble, SSA& all versions with strings' below it.
