

Left click => The musescore window disappeared completely.
Only the icon stays visible in the taskbar
Left click on musescore icon => nothing happens

When mouse over icon, a small window appears.
Left click on window or header : nothing happens !

Solution :

Mouse over musescore icon in taskbar
Right-click on the top part of the window (header)
Choose « increase or restore » (Agrandir in French)

The musescore window appears as normal
