new function

Match to the previous slide.

If the sound before the F and C is a chromatic, the F and C are changed to use slides as shown below.

Match with the previous blow or draw.

If the sound before the F and C is blowing or drawing, the F and C are changed as follows.

When C is specified as number 5

If you check "Match to the previous slide" and "Match with the previous blow or draw"
It will be as follows.
