These are examples from a Draft I'm working on in Finale. I want to move these and all 77 pages over to MuseScore so I can work from a Linux OS. After watching a MuseScore Cafe, I can already see that spacing text and notes within the measure will be considerably easier and more stable in MuseScore...excited for that! I'll look for examples of staff arrangements on the page as I take the classes. But if anyone has ideas as to how to do this in the easiest way, I'd appreciate hearing about it!

Thanks, Sora

PS The Clip Art here and in my draft is used to hold the design place and is in the process of being replaced by artwork and page design by Chloe Cope.
