After some time the program is open.

Click Edit, then Preferences:
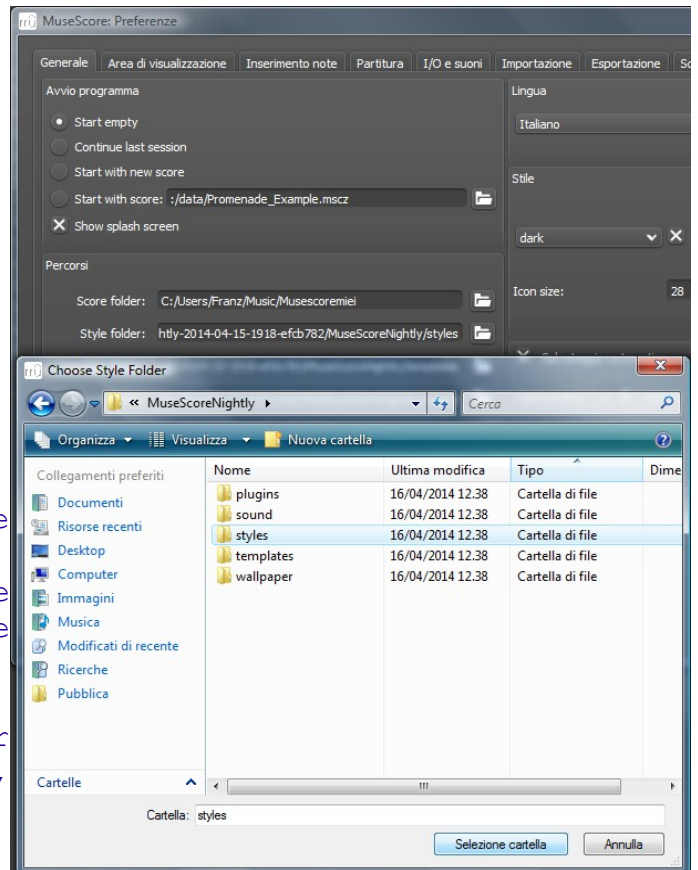

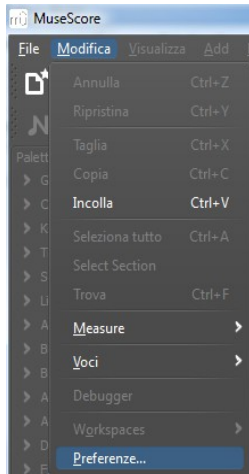

If a Nightly was already on the
pc all the folders relate to it,
Select the folder icon (eg the
Style folder) and browse to the
main folder: MuseScoreNightly

Just click on the folder
"styles", without opening it,
and then clic on "select" (OK).
Repeat for the next folders

Pay attention to the folder "Sound": it opens a dialog box.
Select and delete the contents;
Select Add and browse to the folder "Sound";
Just click on the folder "sound", without opening it, then OK and
Apply
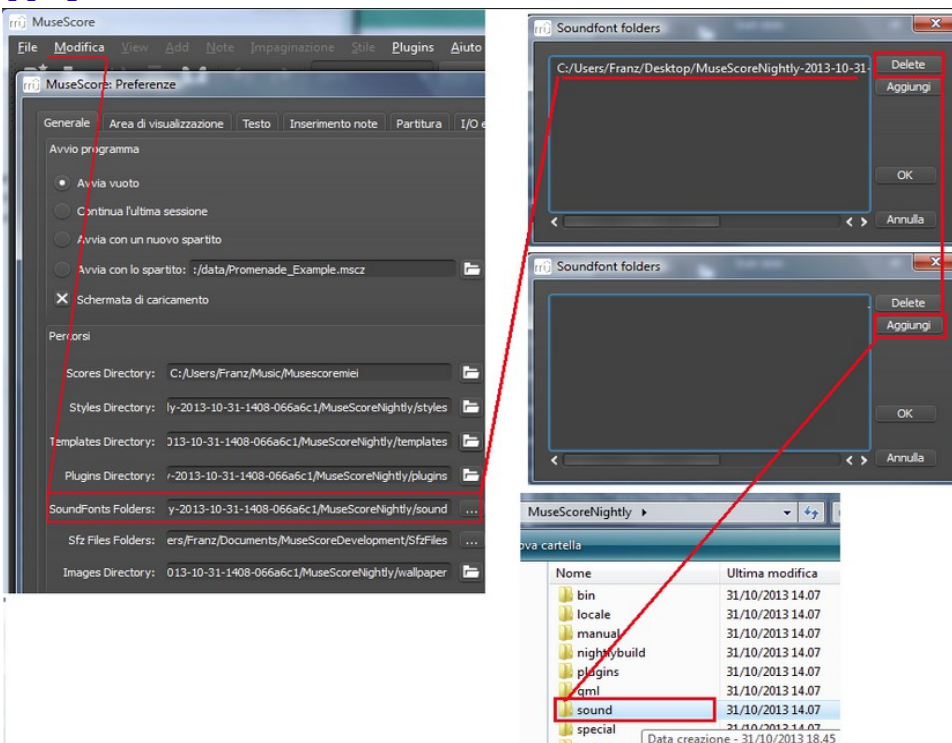

Follow the red
line ;-)

Buona musica!
