Follow the instructions for installation

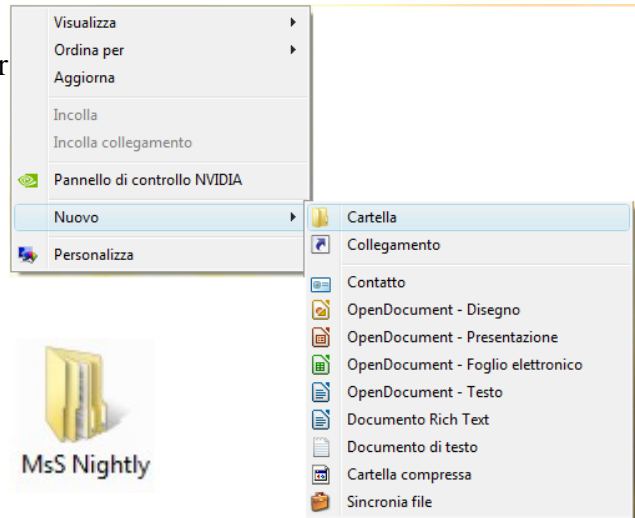

Nightly, if you want to try it.

Right-click on the desktop (or in a folder of your choice) ...

...Create a new folder >

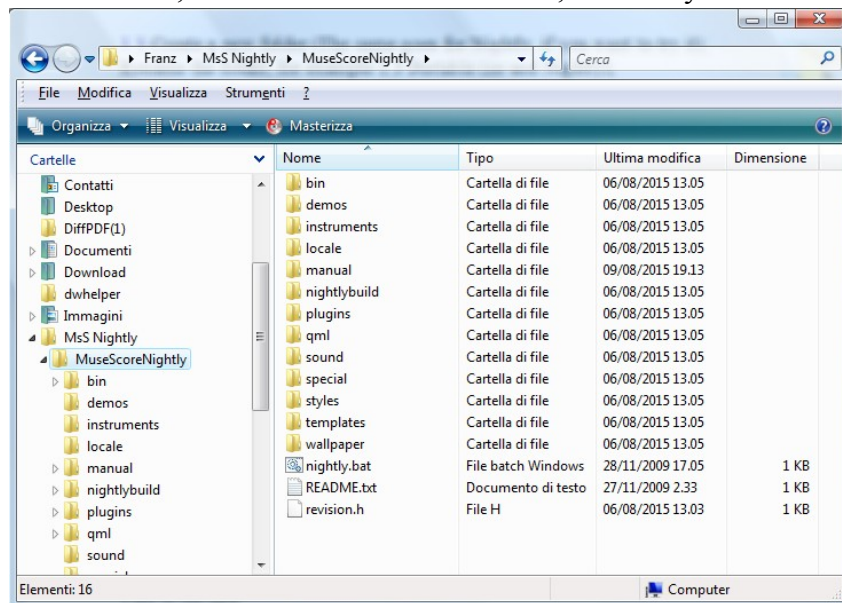

Rename the folder, for example MsS Nightly;

Download Nightly, this is the link

<https://musescore.org/en/download#Nightly-versions>

Follow the instructions for installation, and when the wizard asks, choose your folder (in my example MsS Nightly)

in the folder "Bin" you find the .exe file : nightly.exe

This is the path on Vista Franz > MsS Nightly > MuseScoreNightly > bin >
